

KANDOI GROUP OF INDUSTRIES

GROWTH IS LIFE
YOUR PACKAGING PARTNERS

PP WOVEN FABRIC | WOVEN SACKS | FIBC | GROUNDCOVERS AND NETS | WOVEN GEOTEXTILES

Four Decades of Experience in Engineering High Quality Products

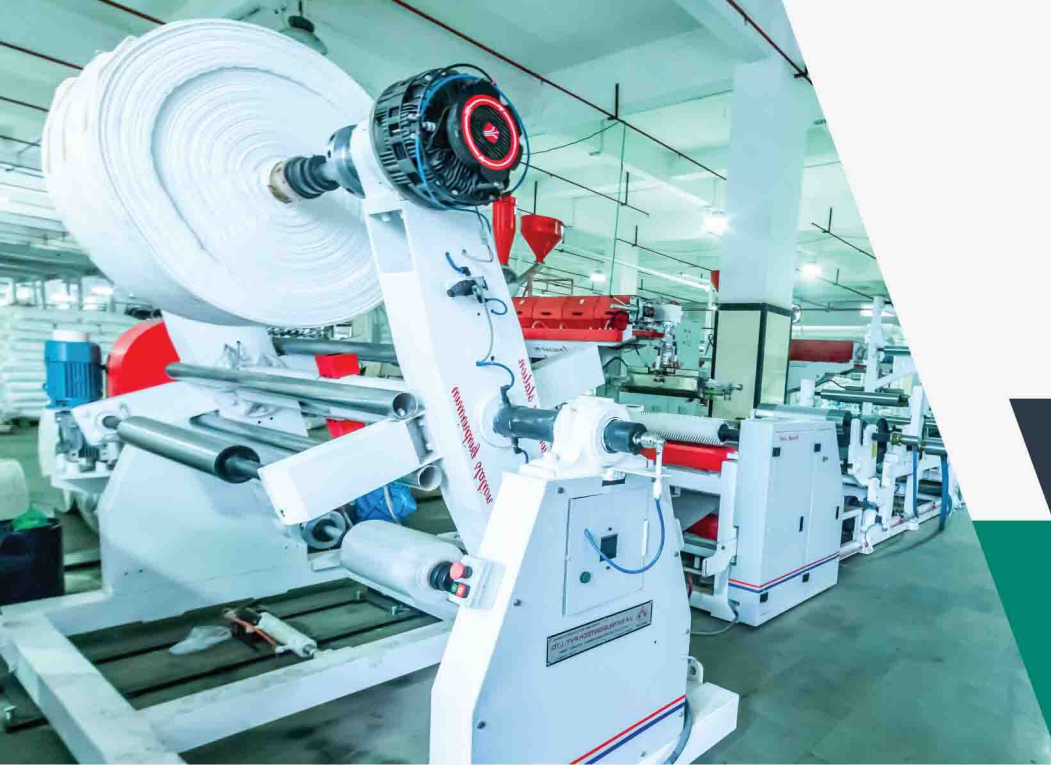

Kandoi Group of Industries, established in the year 1984, is a market leader in the Woven Polymer industry. We have 11 production units that are fully integrated to extrude tape, weave fabric and convert to the final product.

Our strength lies in our ability to implement innovative ways to serve our customers. With an experience of over 4 decades, our priority is to adapt ourselves continuously, both in terms of technology and market knowledge to meet the needs of our Domestic and Export Clients.

Kandoi Group is a result of Mr. Niranjana Agarwal's vision. The company has been built over a legacy of 3 generations, spearheaded by leaders who have shown relentless zeal and persistence towards continuously updating our product lines and technologies.

We have a team of accomplished professionals to assist in running the company in a smooth manner.

Infrastructure

Manufacturing Facilities

Our Production facilities are located in Daman, India. We have 11 production units - total area of approximately 825,000 sq ft. Our facilities include 18 extrusion lines and over 900 looms - both Circular and Flat looms.

Product range

1. PP Woven Sacks
2. Box Bags
3. Bale Covers
4. Jumbo Bags (FIBC's)
5. FIBC Liners
6. PP Woven Fabrics
7. Agrotextiles
8. Geotextiles
9. PP Multifilament Yarn
10. Masterbatches

Industries Served

Food Industry : Salt, Sugar, Cocoa, Potatoes etc.

Chemical Industry : Polymers, Recycled Material, Masterbatches, Fertilizers etc.

Construction Industry : Cement, Sand blasts etc.

Other Items : Posts, Bottle Corks, Textiles etc.

Quality Control

At Kandoi Group Of Industries, we prioritize excellence in production, compliance, and customer satisfaction. Our commitment to quality is unwavering as we constantly upgrade our technology and skills to deliver valuable Industrial Packaging products.

Key highlights of our approach

1. Rigorous quality checks at every stage.
2. Full compliance with regulations.
3. Continuous technological advancements.
4. Efficient operations and waste minimization.
5. Responsive customer support.
6. On-going improvement of quality management.

Additionally, our dedicated R&D teams drive product innovation, technological upgradation, and improved product quality.

Sustainability is a vital aspect of our operations

1. Conserving resources, minimizing wasteful practices.
2. Training our workforce for sustainable operations.
3. Allocating a green belt area and employing advanced treatment systems.

At Kandoi Group Of Industries, we strive for excellence, customer satisfaction, and a sustainable future.

PP Woven Sacks

At Kandoi Group Of Industries, we prioritize excellence in production, compliance, and customer satisfaction. Our commitment to quality is unwavering as we constantly upgrade our technology and skills to deliver valuable Industrial Packaging products.

Our offers :

1. Laminated and Unlaminated Bags
2. Bags with Inner Liner
3. Post Bags
4. Sand Bags
5. Valve Type Bag
6. Gusseted Bags
7. Perforated Bags
8. Food Grade Bags
9. Box Bags Or Bale Covers
10. Roto Gravure BOPP Printed
11. Sandwich Bags
12. Paper Laminated Bags

Packing Options

At Kandoi Group of Industries, we prioritize quality packaging. Our crease-free flat pack for bales and bales on pallets ensure convenient handling. With our attention to detail and impeccable printing, we guarantee packaging that exceeds expectations.

Leno Bags

This bag is designed to protect its contents and withstand the rigours of shipping while providing visibility of the packaged product. Leno Bag/PP Woven Mesh Bag are typically used to store oranges, onions, potatoes, garlic and other fruit and vegetables. This has enough durability that you can use them for years to come. This mesh bag is very cost effective and can be easily purchased by our eminent customers at nominal rates in bulk quantities.

Flexible Intermediate Bulk Containers (FIBCs)

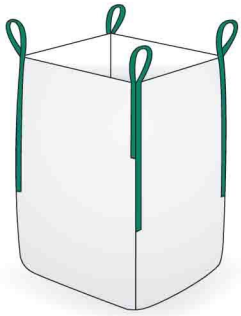

FIBCs are also called Bulk Bags, Jumbo Bags or Big Bags. We at Kandoi Group are continuously raising standards through extensive R&D, sophisticated equipment and stringent quality measures to produce world class quality FIBCs.

Features

1. Can withstand loads from 500 Kgs to 2000 Kgs as per the customer's specification
2. Printing upto 4 colors.
3. Tailor-made as per the customers requirements
4. All FIBC have the option of being made with or without liners
5. Packing - Pallets / Jumbo Bales

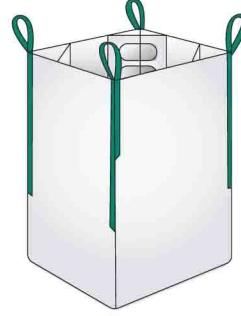

FIBC Big Bag Types

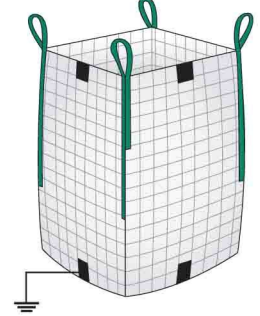

Standard U+2

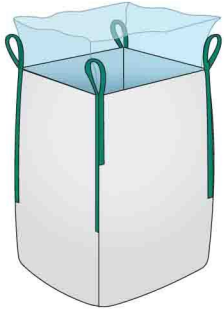

Circular Cross Corner

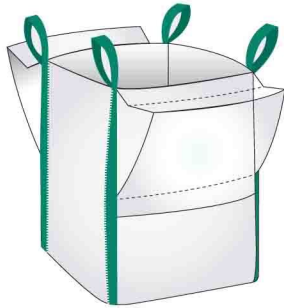

**Formstable/
Baffle Bag/ Q-Bag**

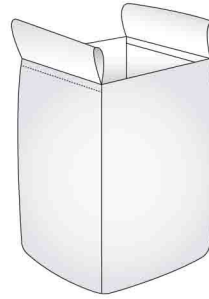

**Conductive /
Type C**

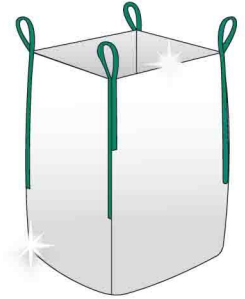

With Inliners

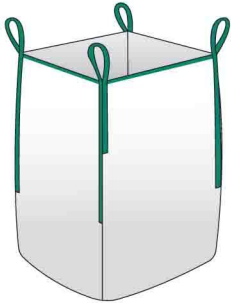

Tunnel Loops

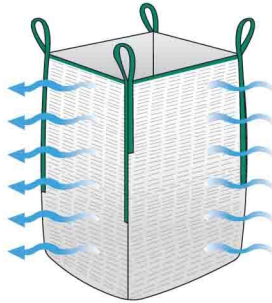

Sleeve Loops

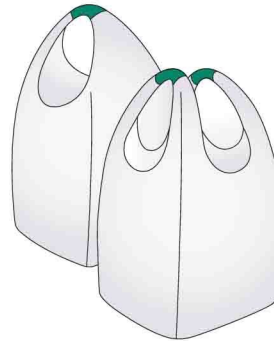

Foodclean

UN Bags

Ventilated Bags

**One Loop /
Two Loops**

**Loop in Loop Stevedore,
Single Stevedore,
Parallel Stevedore**

PP & HDPE Woven Fabrics

Kandoi Group offers top-quality Woven Fabrics and Rolls that are strong, lightweight, and versatile. Our products are ideal for packing textile, agriculture, steel, and chemical products. Choose from various colors, prints, mesh, and gusset options to suit your specific requirements. Trust in our reliability and standardization for all your woven fabric needs.

Features and Benefits	Types of Fabric
- Fabric weight from 40 GSM to 600 GSM - Laminated and Unlaminated versions 5x5, 8x8, 10x10, 10x8, 12x12, 14x14 weave construction - Printing upto 6 colors on both sides - Ultraviolet (UV) Protection - Flame Retardant - Suitable for Food contact. - With Ultrasonic edges , if required. - Anti Rodent	- PP & HDPE Woven Fabrics for Woven Bags - PP Woven Fabrics for FIBCs. - Wide Width Lay Flat Fabric upto 5.50 MTR - Type C conductive fabric / Antistatic - Clear Sheets (Transparent) - Lumber Cloth - Roofing Fabrics - Pond liners - Tarpaulin - HDPE Cherry Covers

Agrotextiles

Woven Ground Cover (Weed Mat)

Our Ground Cover is durable and UV-resistant, made from Virgin Polypropylene with UV Stabilizer and Color additives. It effectively blocks sunlight while allowing vital air, water, and nutrients to pass through, promoting healthy plant growth. With effective weed control and gridlines for precise positioning, it's the ideal choice for greenhouses, gardens, nurseries, and landscaped areas.

Specifications :

GSM : 80 - 150 gsm (2.35 oz - 4.5 oz/ Sqyd) or as per customer requirements.

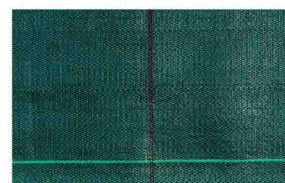

Width of fabric : 0.36 m - 5.40 m (14" - 212")

Colors : Black-Black, Black-Green, Black-Brown, White or as per client requirements.

UV Stability : Highest Possible KLY.
750 KLY Maximum

Density : Available in Circular 10x10 and Sulzer 24x10 Variants.

Apparent Opening Size (AOS) : 40 US Sieve
(approximately 425 microns)

Anti Hail Net

Our Anti hail nets are made from high-density polyethylene (HDPE) with UV protection, providing protection against hail, heavy rain, and strong winds. It allows sunlight and air to pass through for healthy crop growth.

Specifications :

Mesh Size : 6 × 6 per cm or as per customer requirement

Colors : Black, White or as per customer requirement

Shade Net

Shade net is a UV stabilized product made of virgin HDPE and comes in various shade percentages. It is used to provide shade and protection against the harmful UV rays of the sun. It is also ideal for creating a comfortable environment for plants, livestock, and people.

Specifications :

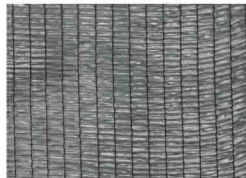

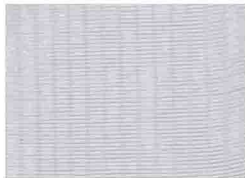

Percentage : 30% / 40% / 50% / 70% / 90%

Color : Black, Green, Brown, Beige, White, Blue & Silver or as per customer requirement

Size :

Without Stitching : Upto 5m

Without Stitching : As per customer requirement

Anti insect net / Anti mosquito net

Our Anti Insect Nets are made from HDPE material with anti-UV additives, prevents insects and pests from entering the crop area, allows sufficient sunlight and air to pass through.

Specifications :

Mesh Size : Made to measure pieces

Colors : Black, White or as per customer requirement

Anti trip net

Made from high-quality HDPE material, our anti-trip net is specially designed as a barrier to prevent the access of thrips and aphids to cultivation areas and plantations. It offers durable protection, ensuring the health and productivity of your crops while maintaining a safe and pest-free environment.

Specifications :

Mesh Size : 2.5 × 3 per cm

Colors : Black, White, natural white or as per customer requirement

Silage Net

Our close-meshed silage covers are made from UV-stabilized HDPE monofilament, which is rot-resistant and mold-free. They provide reliable protection for silage pits and bales.

Specifications :

GSM : 250 gsm or as per customer requirement

Size : Upto 5 m without stitch or with stitch as per customer requirement

Color : Dark green, White, Black or as per customer requirement.

Pond Liner

Our pond liners are made from durable HDPE coated fabric, providing superior protection for your pond. This material is long-lasting and resistant to UV radiation, punctures, and tears.

Specifications :

GSM : Upto 955 gsm

Thickness : 0.30 mm – 1.10 mm

Geotextiles

Silt Fence

Silt fence made from UV resistant polypropylene tapes helps prevent soil erosion during construction. It works as a perimeter control, in combination with sediment basins and traps, to retain sediment in place. The fence features synthetic filter fabric stretched between wooden or metal stakes.

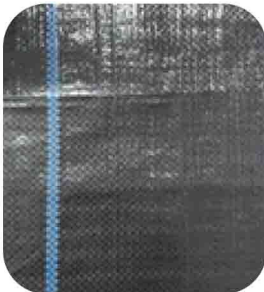

Specifications :

GSM : 65 – 110 gsm (1.902 oz – 3.25 oz)

Size : 0.91 m – 5.34 m (36" – 210")

Color : As per customer requirement

Woven geotextiles

Our woven geotextiles are manufactured using high-quality polypropylene materials and advanced weaving technology to provide superior strength, stability, and filtration performance. Our geotextiles are designed to meet the needs of a wide range of civil engineering and construction applications.

Specifications :

Tensile Strength : 15 × 15 – 105 × 105 kN/M
(100 lbs – 600 lbs)

Sizes : 12.5 ft – 17.5 ft (Upto 5.4 m)

Color : Black, White and Orange or As per customer requirement

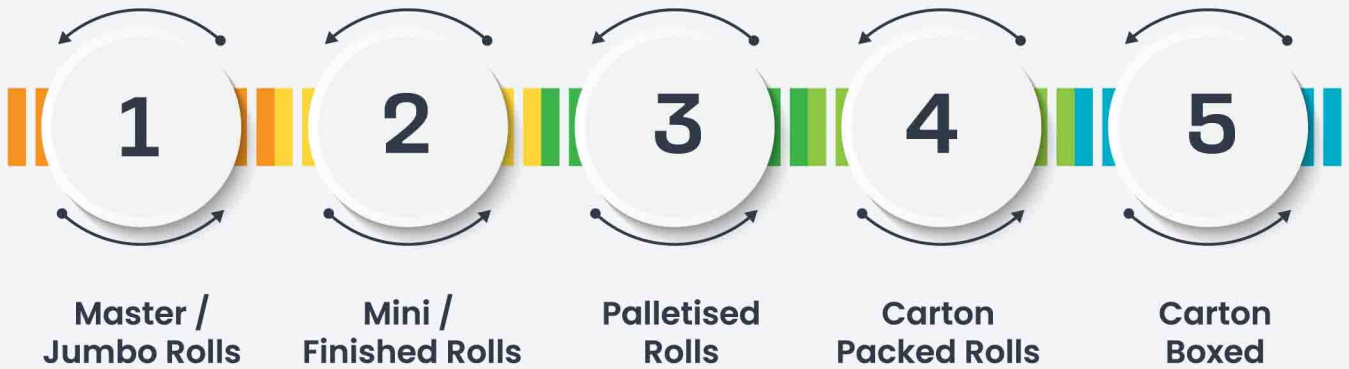

AASHTO NTPEP Certified for North America and CE
Certified for Europe

UV stabilization : Minimum 70% retention after 50
hours of UV stability testing

Packing of Rolls

We offer a wide range of Packing for all fabrics as per customer requirements.
Fabrics can be flat folded

Applications

Memberships

AIFTMA : All India Flat Tape Manufacturers Association
